
Don't Waste Your Garden

HOME GARDENER WORKSHOP SERIES

Wednesday, August 5, 2015

6:30 — 8:00 PM

OSU Extension

603 Wagner Avenue

Greenville, OH 45331

Some year's your garden can produce too much food for you to consume while it's still fresh. Has this ever happened to you? Have you left fruits and vegetables to rot in your garden because you cannot eat any more? If you have answered yes to either or both of these questions, then this workshop is for you.

Our goal with the "Don't Waste Your Garden" workshop is to help you learn how to preserve your food through freezing, instead of the traditional canning method. We also want to share with you how to extend your growing season as well as using cover crops and seed saving. Learn basic tips on how to dry and store seeds for next year. And finally, if you have some waste, we will cover the best methods of composting and using that material properly in your garden.

Join us for this free workshop on Wednesday, August 5, 2015 at the OSU Extension conference room located at 603 Wagner Avenue, Greenville, Ohio 45331 from 6:30-8:00 PM. We look forward to seeing you there!

Register now for this FREE workshop at www.darkeswcd.com or call 937.548.1752
